

## Strategic Framework

To work towards its vision the Scottish Forum's Strategic Framework is focused on:

- **Impact through Collaborative Action**
- **Impact through Policy & Legislation**
- **Impact through Knowledge & Innovation**

## Strategic Framework outcomes

The Scottish Forum on Natural Capital, through its Project Groups, will work towards five strategic outcomes

- **Natural capital & Scotland's peatlands**  
Healthy peatlands locking away carbon, filtering water, protecting against floods and supporting biodiversity
- **Natural capital & Scotland's green infrastructure**  
Resilient green infrastructure supporting healthy and happy communities, benefiting biodiversity and strengthening the economy
- **Natural capital & Scotland's land**  
Sustainably managed land delivering multiple benefits for people, the environment and the economy
- **Natural capital & Scotland's seas**  
Healthy seas providing sustainable food and energy, locking away carbon, supporting biodiversity and boosting tourism
- **Natural capital & the circular economy**  
A circular economy, eliminating waste, saving natural resources and improving the bottom line for business
